

## HOST SERVICE INFORMATION

Would you like to share your knowledge and skills with other child care professionals from around Queensland by welcoming them to your Centre, Family Day Care Scheme, In-home Care or Outside School Hour Care Service?

Professional Support Coordinator Queensland (PSCQ) would like to offer child care professionals across Queensland an amazing opportunity to step out of their world and experience exciting new learning opportunities in different environments.

To make this happen we are calling for child care services throughout all Queensland regions to put their hands up and offer to host a child care professional from another service for up to one week.

As the host service you would gain not only an extra pair of hands for the nominated time, but also have an opportunity to exchange ideas, share your knowledge and build relationships with child care professionals from another region or service. Your service would not be required to organise the exchange. PSCQ is taking responsibility for organising the exchange participant's assistance where applicable.

We would like to invite all interested child care services to fill in the Expression of Interest to apply to become a host service in this unique program. Remember, this awesome program will only happen if you support it!

For more information look through the Frequently Asked Questions flyer or contact PSCQ:
