

WHY ARE YOU BEHAVING LIKE THIS?

Turning Theory into practice for working with children

This is an in depth look at some of the developmental and environmental factors that impact on children and their behaviours on a day to day basis.

We will look at a range of issues including, behavioural issues related to brain functioning, perceptions, and developmental stages.

We can often talk about actual issues as well. Participants can discuss (with due confidentiality) actual issues that come up day to day for them and we will workshop them 'live'.

Outcomes include:

- An understanding of theoretically informed practice
- An awareness of contextual realities for children and young people
- An understanding of different approaches and tools used in practice
- Networking and peer learning opportunities
