

# Creating Harmony

## Understanding Children's Behaviours

**Do you want to learn more about ways to create harmonious relationships with and among the children in your care?**

**This workshop will allow us to reflect on our attitudes, interactions and environments and the impact this can have on the behaviours of young children. Together we will explore practical strategies to meet children's needs and to develop positive behaviours.**

Learning outcomes include

- Learn more about building relationships with children
- Consider your style of guiding children's behaviour
- Reflecting on your environments and practices
- Considering why children may behave in certain ways

### WITH SUE INGLIS

Sue Inglis has 23 years' experience as an early childhood educator, spending many years teaching in remote country areas. She particularly enjoys creating opportunities with other educators to discuss and reflect on how we can build our capacity around what is valuable for young children, especially in the areas of curriculum, behaviour, relationship building and early literacy. Sue has been involved in the creation of Daisy digital portfolio software. She holds a Master of Education in early childhood and is the co-director of Growing Early Childhood. Sue has recently conducted research around the sustainability of professional development opportunities for the childcare field and has a real interest in assisting centres to build positive change.
