

## FOCUS ON BEHAVIOUR

### *School aged behaviour workshop Aimed at 5–12 age group (OSHC)*

The sessions will focus on how children may use behaviours as a form of communication and ways to possibly incorporate this into the day to day work of the educator and what to draw on in making use of the behaviours for observations. We will look at what might be being communicated by the particular behaviour of a child, how children may be 'over pathologised' based on other information, and how we as adults may respond to different children and their behaviours.

Outcomes include:

- An understanding of theoretically informed practice
- An awareness of contextual realities for children and young people
- An understanding of different approaches and tools used in practice
- Networking and peer learning opportunities
