

Four workshops in Brisbane in
July presented by

BEN FURMAN

Based in Finland, Ben Furman is a psychiatrist, psychotherapist and trainer of solution-focused approaches specialising in the areas of children's behaviours and workplace relations. Within these specialist areas he has developed "hands on" programs including Kids' Skills and Creating Solution Focused Work Environments. Ben is author of numerous books that offer practical insights into solution-focused approaches, as well as guides to his popular programs Kids' Skills, Twin Star and Reteaming. Ben's workshops are thought-provoking and entertaining leaving workshop delegates with the inspiration and skills to make the shift to focussing on solutions rather than problems. Solution-focused psychology has been successfully applied in diverse areas such as education, counselling, organisational development and management.

KIDS' SKILLS

**A Practical Solution-Focused Method for
Helping Children Overcome Problems**

13 July 2010

Skills to effectively help children change behaviours make a difference to your work and the lives of children and families. So how do you become more effective? Ben Furman's Kids Skills Program will help you approach children's problems in a new way giving you the skills to; see children's problems as a new skill to be learnt; work collaboratively with the children and families to learn these new skills. The program is supported by a detailed handbook! It's a focus on solutions rather than problems!

CREATING SOLUTION FOCUSED WORKING ENVIRONMENTS

15 July 2010

We all know that cooperation and teamwork means a much happier workplace often leading to a more effective and innovative organisation. By using the solution focused program presented in this workshop, leaders, managers and their employees will be equipped with communication and cooperation skills to develop a positive working environment. The program is supported by a published handbook for reference and reflection to take back to your workplace.

KIDS' SKILLS FOR PARENTS PROGRAM

**Inspiring and Teaching Parents
to Enjoy Their Kids**

19 & 20 July 2010

Strengthen parents' faith in their role as parents by offering them practical tools for dealing with the daily challenges of child rearing. Using a solution focused approach, the Kids Skills for Parents Program offers creative ways of working with parents to strengthen parental co-operation, help their children overcome problems; coach their children to take responsibility for their actions.

SOLUTION FOCUSED THERAPY WITH COMPLEX CASES

22 July 2010

Solution-focused therapy is a simple and straightforward model for counselling individuals, couples and families but as practitioners begin to apply it in practice they often experience situations that they find difficult to deal with. Such challenging clinical situations include domestic violence, suicidal plans, psychotic symptoms, obsessions and compulsions, chronic depression, etc. This workshop allows practitioners to find out how to modify the solution-focused approach to fit the needs of special needs clients and offering an opportunity to consult about their own thorny cases.
